VENOME MESO

Professional use only

VENOME MESO

- SOLUTION FOR EVERY PROBLEM

VENOME MESO

PROFESSIONAL TREATMENTS
FOR INTENSIVE SKIN RENEWAL

After five years of research and analysis, the brand was optimally created reconciling the needs of professionals with the expectations of customers.

Venome Meso is a range of **14 sterile mesotherapy preparations** rich in active substances targeted for the needs of various types of skin: **acne, atopic, prone to wrinkles, to hair and body products and extremely delicate intimate zones**. Active ingredients each of the mesococtails have been specially selected in terms of specific areas of the skin and their individual needs. The preparations are intended for professionals performing treatments in the office.

In the Venome Meso range of mesococtails you will find **solution for every skin problem.**

VENOME MESO ANTIAGE

REDUCTION OF SIGNS OF PHOTO-AGING

5 ml

EFFECT

Vitamin cocktail to help combat signs of photoaging of the skin. Essential for stimulating tissue renewal, especially after periods of exposure to adverse UV radiation.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

ACTIVE INGREDIENTS

The use of a synthetic form of **Vitamin C** allows you to increase protection against free radicals, seal blood vessels and lighten pigmentation spots.

Proretinol has remedial effects by improving skin blood supply, by increasing tissue resistance to ultraviolet radiation, thereby reducing the side effects of skin aging.

The composition of B vitamins increases the synthesis of collagen and elastin, maintains proper hydration of the epidermis and deeper parts of the dermis, while ensuring its proper oxygenation and more efficient transport of minerals.

VENOME MESO ACNE

SUPPORT FOR CONDITIONED SKIN INFLAMMATORY AND ACNE

5 ml

EFFECT

Two fungal extracts: **Cordyceps** and **Variegated Ingross**, have created an ideal ampoule in the fight against skin inflammation. The active ingredients of the preparation also have a strong anti-inflammatory and antibacterial effect, minimizing the formation of subsequent inflammations.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

ACTIVE INGREDIENTS

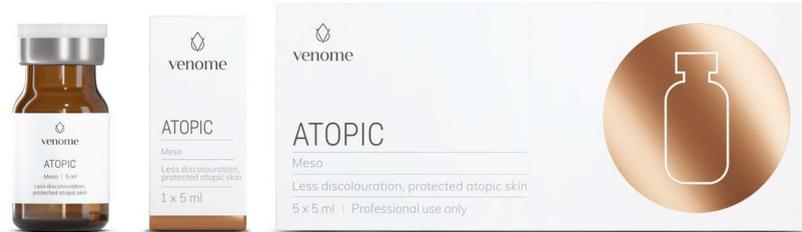

Two fungal extracts: **Cordyceps** and **Variegated Ingross**, have created an ideal ampoule in the fight against skin inflammation.

The active ingredients of the preparation also have a strong anti-inflammatory and antibacterial effect, minimizing the formation of subsequent inflammations.

VENOME MESO ATOPIC

INCREASE OF ILLUMINATION AND
BARRIERS PROTECTIVE SKIN PREENERED

5 ml

EFFECT

Meso ATOPIC helps rebuild the skin's protective barrier. The ATOPIC mesococktail is characterized by a combination of antioxidants and active forms of vitamin C, demonstrating anti-inflammatory and stimulating effects.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

ACTIVE INGREDIENTS

Unique use of **Ascorbyl glucoside** (combination of natural starch and Vitamin C), which is activated by an enzyme contained in skin cells, helps successively release ascorbic acid, thanks to which it reaches the deeper layers epidermis and partially the dermis. Supports the stimulation of collagen synthesis and hyaluronic acid, improving flexibility and skin hydration.

Ascorbyl Glucoside and **Citric Acid** are also responsible for the action exfoliation, which helps to fight uneven color and stains pigmentation, giving the effect of illumination.

VENOME MESO ANTIOX

ANTIOXIDANT SHIELD WHICH HELP
IN THE FIGHT AGAINST DISCOLOURATION
AND VISIBLE SIGNS OF AGING

5 ml

EFFECT

It contains a unique combination of active ingredients supporting skin repair processes and rebuilding the protective barrier, useful in the fight against free radicals.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

ACTIVE INGREDIENTS

Glutathione contained in the product, due to its impact on the appropriate growth hormones, is responsible for rebuilding tissue resistance and cell regeneration, thus demonstrating the role of an antioxidant that neutralizes free radicals.

Supported by **Lipoic Acid**, which naturally occurs in the body's cells, effectively eliminates wrinkle lines and oxidative damage, while preventing discoloration.

The addition of amino acids such as **Cysteine and Taurine** protects against harmful effects of UV radiation and cell renewal.

VENOME MESO DELICATE WHITE

ANTIOXIDANT SHIELD HELPFUL
IN FIGHTING DISCOLORATION

5 ml

EFFECT

A unique set of active ingredients designed to work in areas where the skin requires special care.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

ACTIVE INGREDIENTS

The natural component of the preparation, which is **Arbutin** obtained from bearberry with strong bactericidal properties, is one of the most effective substances that reduce discoloration and inhibit the occurrence of hyperpigmentation of sensitive areas.

Resorcinol is the main brightening and antiseptic ingredient, thus softening tense and delicate skin.

A set of **vitamins C** and **B3** helps seal blood vessels and maintain proper moisture level.

Professional use only

VENOME MESO DELICATE FIRM

BIO-REVITALIZATION OF SENSITIVE
INTIMATE AREAS

5 ml

EFFECT

A mesococktail designed for particularly sensitive areas, which thanks to the high concentration of hyaluronic acid and DMAE makes it more elastic and restores the proper moisture level.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

ACTIVE INGREDIENTS

A uniquely selected sequence of **amino acids and vitamins** strengthens the protective barrier of the epidermis, protecting it from drying and strengthening regeneration consisting in stimulating cell division.

The use of **Hexapeptide-8** allows you to relax muscle tension, which is often a problem in sensitive areas.

venome-global.com

VENOME MESO BTX

ELIMINATING WRINKLES THANKS
TO THE BOTOX-LIKE EFFECT

5 ml

EFFECT

A unique formula supporting the reconstruction of collagen fibers, thereby increasing the density and tension of the skin. Due to its composition, Meso BTX is one of the most effective therapies responsible for strong anti-wrinkle and repair effects.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

ACTIVE INGREDIENTS

The use of the unique **Hexapeptide-8**, which is a shortened, safe and less invasive alternative to botox, allows to affect the neuromuscular synapses, whose continuous work causes skin breakdowns. The relaxing effect of the peptide on muscles, which consists in inhibiting the production of catecholamines needed for muscle contraction, helps reduce the visibility of mimic wrinkles, especially crow's feet and nasolabial furrows.

VENOME MESO EYEBAG

HELP IN THE FIGHT AGAINST SWELLING
IN THE EYE AREA

5 ml

EFFECT

Edema located around the eyes require carefully selected ingredients for their complete elimination. Meso EYEBAG has a unique composition, thanks to which water stagnations occurring in the tear valley zone are minimized.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

ACTIVE INGREDIENTS

The use of the active substance **Tetrapeptide-5** allows you to stimulate microcirculation in tissues, eliminating persistent edema caused by fluid accumulation in intercellular spaces.

Coenzyme Q10 ensures proper stimulation of energy metabolism in tissues, properly oxygenates them, which affects the partial elimination or inhibition of progressing aging processes.

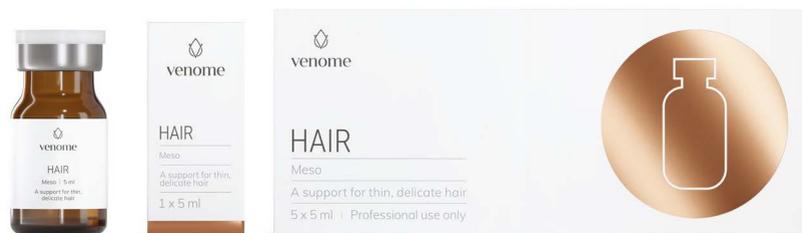

Occurring edema additionally reduces **artichoke extract** by stimulating the lymphatic system for continuous synthesis. The unique composition also ensures adequate hydration and illumination of the delicate area around the eye.

VENOME MESO HAIR

HELP FOR WEAK AND DELICATE
HAIR ROOTS

5 ml

EFFECT

Meso HAIR is the perfect composition to strengthen weak and delicate hair.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

ACTIVE INGREDIENTS

Keratin naturally occurs in the human body, being the main building block of hair and nails. Its use in a cocktail, after the initial hydrolysis process, ensures a high degree of bioavailability, thanks to which it strengthens the structure of the bulbs, complementing the defects resulting from improper diet or hairdressing.

The ampoule supplies a large amount of biotin, commonly known as **Vitamin B7**, which is a source of sulfur particles, which is an essential component for the production of keratin. Biotin also contributes to the inhibition of hair loss and increases their elasticity and proper hydration.

The composition of **vitamins B6, B1** and **panthenol** accelerates cell division, stimulating microcirculation in the scalp, strengthening the bulbs and hair shaft. The effect of using mesococktail is to supplement vitamin deficiencies, improve hydration, strengthen hair elasticity and minimize hair loss.

Professional use only

VENOME MESO HANDS

INTENSIVE REGENERATION
AND HAND CARE

5 ml

EFFECT

The delicate skin of the hands, constantly exposed to external factors, requires adequate moisturizing and supplying ingredients with the ability to activate regenerative functions in tissues.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

ACTIVE INGREDIENTS

The **hyaluronic acid** contained in the Meso HANDS ampoule has a strong hygroscopic effect (permanently attracts and binds water giving the right level of skin hydration) and repair, due to the specific effect on proteins such as collagen and elastin, which are responsible for skin tension and density.

The high concentration of **Vitamin B3** creates a protective barrier ensuring reduction of water loss in tissues and inhibition of free radicals secretion.

Niacinamide protects the skin against UV radiation and brightens discoloration. The right composition of amino acids ensures proper lipid metabolism and antioxidant activity, which counteracts the aging of delicate hand skin.

VENOME MESO NECK

BIO-RENEWAL OF THE NECK AND NECKLINE

5 ml

EFFECT

Meso neck is a highly effective cocktail of active ingredients that provide regeneration and improvement of the appearance of the neck skin.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

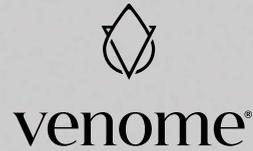

ACTIVE INGREDIENTS

The high concentration of low molecular weight **hyaluronic acid** in the form of a sodium salt ensures the binding of a large amount of water, which guarantees proper hydration and proper functioning of cells and regeneration of connective tissue.

The use of the natural lifting component which is **DMAE** gives the effect of increasing the tension and thickening of the slack areas of the neck and décolleté.

Meso NECK contains **amino acids** that are an essential element of the epidermis, forming a protective hydro-lipid coat, i.e. a natural moisturizing factor, thus increasing the ability of cell division and the activation of collagen production.

Hexapeptide-8 is a synthetic peptide responsible for muscle relaxation, aligning the skin structure and increasing the amount of elastin fibers that significantly affect the appearance of the neck area.

LOSS OF SKIN FIRMNESS?

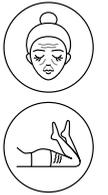

LOCAL

ADIPOSE TISSUE?

VENOME MESO TIGHT

THE EFFECT OF TENSION AND STIMULATION
OF DEEP SKIN REGENERATION

5 ml

EFFECT

The active ingredients contained in Meso TIGHT mesococktail effectively regenerate skin structure, giving the effect of restoring skin density and tension.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

ACTIVE INGREDIENTS

Ascorbic acid, commonly known as Vitamin C, is necessary for the indirect synthesis of collagen and elastin in the skin, thanks to the possibility of its enzymatic activation. It is responsible for the continuous production, regeneration and stabilization of building fibers responsible for the correct tension and density of the skin.

The elastin contained in the preparation, supported by **Vitamin C** helps to restore firmness and proper structure.

Due to the content of **DMAE**, fibroblasts are constantly stimulated to cell division, thus giving the effect of tension, reducing the number of surface wrinkles.

VENOME MESO ANTICELLULITE

CELLULITE REDUCTION

5 ml

EFFECT

Specially selected ingredients of the preparation, such as: Caffeine, L-carnitine and extract from artichoke and field horsetail, synergistically work together in the fight against cellulite.

INTENDED USE

1 ampoule every 7 days for 4/6 sessions.

ACTIVE INGREDIENTS

Caffeine is an alkaloid naturally extracted from coffee and tea seeds. An ingredient with strong draining and stimulating skin microcirculation properties. By improving the flow of lymph in the lymphatic vessels and blood in the blood vessels, it accelerates the removal of excess products formed in the process of metabolism along with toxins. Caffeine also prevents swelling, smoothing and tightening the skin while showing antioxidant effects.

L-Carnitine is a chemical compound necessary for lipid metabolism. It leads to the conversion of fatty acids into energy, thanks to which it stimulates the breakdown of fat tissue and prevents the accumulation of new. Stimulates lymph flow, limiting water stagnation.

Artichoke Extract is an intermediate containing a complex of vitamins C, A and E and cynarin, which detoxifies, while accelerating the reduction of locally accumulated fat. Artichoke extract supports lymphatic drainage, eliminating cellulite.

Horsetail extract is an ingredient rich in silica, iron, phosphorus and potassium, thanks to which it has a strong sealing effect on blood vessels and soothes inflammation of the skin.

POST-TREATMENT RECOMMENDATIONS

WITHIN 48 HOURS AFTER THE TREATMENT:

- ✓ drink plenty of water (about 2.5 liters a day),
- ✓ keep injection sites particularly clean (do not touch),
- ✓ limit contact with animals (touching, hugging),
- ✓ do not sleep in the prone position,
- ✓ do not drink alcoholic and caffeinated drinks,
- ✓ do not smoke tobacco and cigarettes,
- ✓ do not apply makeup,
- ✓ give up using the sauna, swimming pool, hot baths, peels, depilation, intense exercise,
- ✓ do not apply preparations with an irritating effect on the skin,
- ✓ use protective creams with a UV filter, min. SPF 50,
- ✓ use strongly regenerating and moisturizing creams,
- ✓ do not use other aesthetic treatments on irritated areas.

GOLDEN RANGE OF MEZO

- MIX IT AND WORK MORE EFFECTIVE

Products from the Venome Meso range can be combined with each other to create a cocktail with a wider spectrum of action, consistent with the patient's history of skin problems.

FACE PROTOCOL

1. ANTIAGE 2 ml + ANTIOX 2 ml

Reducing the signs of photoaging and support for repair processes

2. BTX 2 ml + ATOPIC 1 ml

Smoothing out mimic wrinkles and illumination of the skin

3. ACNE 2 ml + ANTIOX 1 ml

Effective prevention of formation inflammatory changes

4. NECK 2 ml + ANTIAGE 1 ml

Eliminating negative effects of UV radiation and tightness increase

5. DELICATE WHITE 1 ml + ANTIOX 1 ml

Reduction of zonal discoloration and hyperpigmentation

BODY PROTOCOL

1. TIGHT 3 ml + ANTICELLULITE 3 ml

Increase in skin firmness and reduction of cellulite
